

25% OFF TEKTRONIX BENCH INSTRUMENT RANGE

Special offer valid until 1st July 2011.

Buy any oscilloscope, arbitrary function generator, digital multimeter, power supply or frequency timer/counter from the product series below and get **25% off!**

		
MSO/DPO2000 Series Oscilloscopes	TDS1000B/ 2000C Series Oscilloscopes	AFG3000 Series Arbitrary Function Generators
2,4 channels (16 digital channels on MSO Series)	2,4 channels	1 or 2 channels
Bandwidths 100MHz to 200MHz	Bandwidths 40MHz to 200MHz	Bandwidths 10MHz to 240MHz
1GS/s sample rate	500MS/s to 2GS/s sample rate	250MS/s to 2GS/s sample rate
1 M record length	2.5 K record length	Memory depth 128 K
		
DMM4000 Series Digital Multimeters	PWS2000 and PWS4000 Series Power Supplies	FCA3000/FCA3100 and MCA3000 Frequency Counter/Timers
5.5 and 6.5 digit resolution	90-190 W Power	12 digit/s frequency resolution
Up to 0.0024% basic Vdc accuracy	1 mV / 0.1 mA Precision Resolution	Up to 50 ps time resolution
Measurements: V ac, V dc, I ac, I dc, Continuity, Diode, Frequency, Period, Temperature, Capacitance	Large, bright readouts	Histograms, Trend Plot & Measurement Statistics
	Programmable (PWS4000)	USB/GPIB ports for PC connectivity
	USB device port for easy PC connectivity	TimeView™ Modulation domain analysis (optional)

Terms and Conditions:

- Offer valid on qualifying products only, and on orders placed on or before 1st July 2011.
- Instrument options, accessories and software are eligible for the discount provided they are ordered at the same time as the products and included on the same purchase order.
- TekSelect units, service options, replacement or spare parts are not included.
- Cannot be combined with any other Tektronix offer, promotion or discount programme
- Qualifying institutions must be non-profit institutions, degree-granting institutions or post-secondary educational institutions and fully accredited by the state/government board of higher education.
- Classroom kit contents may change depending on availability of materials
