

## HX7620C Pneumatic Comparator

### Product Description

HX7620C Pneumatic Comparator consists of hand pump, lead screw, reverse valve, relieve valve, and output interface. It features high sealed performance, stable pressure generating and simple operation. It is suitable in the laboratory. It could supply the pressure for the calibrating pressure (differential pressure) transmitters, precision pressure gauges, general pressure gauges and other pressure instruments.

### Functions

HX7620C Pneumatic Comparator provides pressure for calibrating pressure gauges, as pressure (different pressure) transmitters, precision pressure gauges, general pressure gauges and other pressure instruments. It can be extensively used in power, chemical, petrol, metallurgy, metering, military industry etc.

### Characteristics

- Stainless steel, hermetic technology in the military industry
- Stable generating pressure, convenient maintenance, easy operation,
- Wide pressurized range, high vacuum degree
- High reliability, wide micro-adjusting range

### Technical Specification

Pressure range	(-0.98~60) bar
Stability	0.05%F.S
Working Media	air
Output Interface	M20×1.5 Female
Dimensions(L×W×H)	380mm×380mm×200mm
Weight	14Kg
