

## accessories

### **MAG 100 - Magnetic field Antenna**

Accessories for AC magnetic field testing to cover EN/IEC 61000-4-8  
Antennas and field drivers / transformers for field strength up to 100A/m are available.

See the [MF](#) (magnetic fields) section for these products.

### **IEEE 488 interface**

GPIB interface board for the PLINE1610 mainframe

### **External Warning Lamp**

Connected to any generator, the additional, stand-alone widely seen warning lamp indicates clearly the status of the test equipment by red & green lights.

### **External Emergency Stop Switch**

Connected to any generator, the EMERGENCY STOP SWITCH, when activated instantly discharges high voltage circuits and switches off power to the EUT.

### **Optical DEC95 - Optical link for RS232**

10m optical link cable for RS232 connection of the PLINE 1610 to an external PC. Complete electrical decoupling to prevent external disturbances or coupling into the PC.
